About Anke Schrijer

Anke Schrijer is Tax Compliance Manager at AKD working from our Luxembourg office.

Anke joined AKD's Luxembourg office in 2018. Before joining AKD, Anke worked for 11 years with another leading Benelux law firm in its Amsterdam and Luxembourg offices, where she assisted clients in complying with their Dutch and Luxembourg tax compliance obligations. In 2017, Anke joined a stock-listed domiciliation and management services group where she headed the Luxembourg tax compliance department and was responsible for direct and indirect tax compliance of the Luxembourg office's clients as well as for the Luxembourg group itself.

Anke has a tax compliance advisory role within the Luxembourg tax practice group. In addition, Anke is involved in modeling fund flows and other financial data. Anke is in charge of the day-to-day management of the tax compliance obligations of Luxembourg companies that are part of, mainly, private equity funds, real estate funds and multinational groups. As part of that, she flags potential risks, including risks in the field of transfer pricing, BEPS and other developments in the (international) tax world and ensures compliance with the Luxembourg direct and indirect tax filing requirements.
