About Ernst van de Luitgaarden

Ernst van de Luitgaarden is an attorney-at-law in AKD's M&A Contracting practice group. He is also a member of the Energy Team, which focuses on renewables but does not shy away from fossil fuels either. Ernst has experience handling both domestic and international transactions, advising and assisting clients with due diligence assessments, drafting commercial contracts, energy-related regulatory matters, commercial and otherwise, and corporate-law issues, to name a few.

In addition, Ernst has a broad legal interest and therefore also works in the corporate and commercial litigation practice. He has experience with a wide range of disputes, including energy-related ones.

Before joining AKD, Ernst worked for another leading Dutch law firm for eight years.
