About Hugo Botter

Hugo Botter is a lawyer at AKD who specialises in expropriation law. Hugo was involved in land acquisition and expropriation for various infrastructure projects such as the Driebergen-Zeist station area, area developments such as Perkpolder and nature-related projects such as Oostervaarderswold development.

Hugo also specialises in government liability. He is the co-author of the VNG book 'Prepares for liability - municipalities and government liability' [Voorbereid op aansprakelijkheid - gemeenten en overheidsaansprakelijkheid]. Hugo is also a specialist in the field of rare permits and enforcement. He regularly publishes on these issues in academic journals such as the NTB.
