About Marion Daalder

Marion Daalder is an experienced legal assistant at AKD who specialises in the settlement of bankruptcies. Her work therefore includes daily contact with trustees and covers a broad spectrum, such as assisting lawyers in the context of new appointments, drawing up dossiers and coordinating cases, for example the progress of taxation and auction assignments and safeguarding records and digital data. She also maintains bankruptcy records (the administration of the estate account, creditors records and communication and VAT returns for the bankruptcy period). In addition she coordinates the process of verifying claims and drawing up of creditor and/or distribution lists. She also designs financial bankruptcy reports and draws up applications for salary settlements. Her other tasks involve assisting debt collection processes and maintaining contact with the Employee Insurance Agency (UWV) regarding the settlement of claims from employment contracts. Employees, trustees and clients appreciate Marion's pragmatic approach.
